DATA SUMMARY

Stratford is the only cluster to have a magnet middle/high school. With two Reward schools, the cluster has one of the highest-performing zoned elementary schools in the district—while also having two on the Priority list and one, KIPP Kirkpatrick, operated by the charter network in a turnaround partnership with MNPS.

Stratford High School has the highest suspension and chronic absenteeism rates in the district, with half of the students missing more than 18 days of school and almost a third being suspended at least once. The school also falls in the bottom half of the 12 MNPS zoned high schools for college or career readiness.

NA

Identified by the state as improving student achievement and growth. The top distinction a school can earn in TN.

Identified by the state and fall in the bottom five percent statewide over the past three years, and are in need of the most support and improvement.

The state of Tennessee identifies a Ready Graduate as a student who graduated on time in 2017 and earned a composite ACT score of a 21 or higher, the score at which students are considered career and college ready.

Students missing 10% of schools days or 18 days

% for English and Math represent the number of students scoring "on track" or "mastered." Schools that fell below the TN state average (33% for both subjects) are in red and those exceeding the state average are in green.

Data not available. When the percentage of students is below 5%, or above 95%, the state suppresses the data because it could be identifiable for students. We can understand that the percentage of students "on track or mastered" is below 5 percent and therefore unavailable.
